Dear Sirs:

On December 1996 we notified by written of the disposal of some materials under our license number 52-19702-01. The necessary documents were also included as evidence. At that time we requested to maintain our license in order to complete other activities.

On December 1997 we finished the work related to radioactive materials in our company, Puerto Rico Electric Power Authority. For that reason, we require termination of our license at this time.

Cordially,

Francisco E. Lopez, Head
Environmental Protection and
Quality Assurance Division
