**Re: Miles Inc., 8365 Valley Pike, P.O. Box 307, Middletown, VA 22645
Radioactive Materials License Number 45-19163-02**

Dear Ms. Heim:

This is to confirm our telephone conversation of yesterday regarding the referenced Radioactive Materials License. As discussed, this is to confirm that there is no change in ownership or control of the current Miles Inc. facility in Middletown, VA. As I stated in my letter of February 27, 1995 to USNRC, there is simply going to be a name change from Miles Inc. to Bayer Corporation, effective April 1, 1995.

As you suggested, it would be more efficient to implement the renewal of the referenced license now rather than amend the license to reflect the name change and then still have to go through the renewal process in June. On all matters regarding the renewal of the license, please deal directly with Mr. Steve Sions who is at our Middletown facility (703-869-8352).

Since there is no change in ownership or control of our Middletown, VA facility, I do not believe it is necessary to provide the "Information Needed for Change of Ownership Application" which you sent to me on March 20, 1995.
