SUBJECT: TERMINATION OF LICENSE NO. 47-18409-01 (REFERENCE: CONTROL NO. 258363; DOCKET NO. 030-15027)

Dear Dr. Deardorff:

In response to your recent request, enclosed please find termination of your NRC materials license. We have taken this action in response to your letter, surveys and the Certificate of Disposition (NRC Form 314) dated May 10, 1999. You may release the facility for unrestricted use.

Based upon your statements, we have determined that the facility meets the Type I criteria for decommissioning as given in NUREG/BR-0241, "NMSS Handbook for Decommissioning Fuel Cycle and Materials Licensees" in that all of the sealed sources you possessed have been leak tested, found free of contamination, transferred to an appropriate licensee. The technetium-99m you possessed in the past four years has a half-life of 6.0 hours, and the largest utilized dose has had time to decay to background levels in the past 10 months since the last use in July 1998. We note that the survey data provided meets the criteria in 10 CFR 30.36(j).

If there are any errors or questions, please notify this office (ATTN: Ms. Diane Heim at (404) 562-4723) so that we can provide appropriate corrections and answers.

Sincerely,

DSJ
