Dear Mr Collins,

As per your request, I am sending this note to document that we are in possession of the sources transferred from Dr. Dierdorff's NRC license to our facilities (license #47-15473-01) during their decommissioning process. The sources included three radionuclides, which were ¹³⁷Cs (sealed source, 201 μCi, 6/78), ⁶⁰Co (sealed source, 49 μCi, 5/79), and ¹³²Ba (sealed sources, 277 μCi total, 3/83 & 6/78)

If you have any further questions regarding this matter, please contact me at (304) 348-9491

Sincerely,

Jeff Brunette
