License No. 45-15923-01

Expiration Date: November 30, 2000

Dear Ms. Bailey:

We are requesting that the USGS License 45-15923-01 be terminated. The material will be transferred to the USGS License 05-01399-08 held in NRC Region IV. The isotopes and activity limits on the 05-01399-08 license allow all of the materials to be transferred from the 45-15923-01 license with out an amendment. Furthermore, our Region IV license allows USGS operations anywhere in the United States with approval from the USGS Central Region Radiation Safety Committee. This action has been approved by the USGS Central Region Radiation Safety Committee. (NRC Region IV)

Sincerely
