SUBJECT: TRANSMISSION AND EXPLANATION OF CORRECTED COPY OF LICENSES
(MAIL CONTROL NOS. 256402 AND 256404; DOCKET NOS. 030-03343
AND 030-31823)

Gentlemen:

Enclosed are Corrected Copies of two licenses for Virginia Baptist Hospital; 45-10542-01 (nuclear medicine except teletherapy) and 45-10542-02 (teletherapy). This was made necessary by our error in not including Dr. Hilliard in the July 5, 1995, amendment process. The process we are using has been modified since the April request, and we did not realize our error. No fee will be charged. It shall remain our policy to include the names of authorized users and nuclear pharmacists of whom we have been notified of the beginning of service in the next amending action or renewal.

We have included Dr. Hilliard on the teletherapy license, but we have listed her in the therapy areas on the nuclear medicine license, since her credentials do not reflect appropriate training for the diagnostic modes, as indicated by the requirements in SubPart J of Part 35, Title 10 Code of Federal Regulations. We understand that this is the case based upon a telephone conversation with Mr. V. McComas of your staff.

We have split the previous radiopharmaceutical uses into two items to allow for the handling and limitation of specific quantities of materials in a single package.

Thank you for bringing this to our attention. Please read the licenses carefully, as you have done before. Please call Mr. David J. Collins of our staff at (404) 331-5621, or fax at (404) 331-7437 should you have further questions. We have enclosed a copy of the recently revised NRC Enforcement Policy.

Sincerely,

John P. Potter, Chief
