GENICOM, Inc.
ATTN: Mr. Wayne H. Wymer
Radiation Safety Officer
1 Genicom Drive
Waynesboro, VA 22980-1999

SUBJECT: TRANSMITTAL AND EXPLANATION OF AMENDMENT TO LICENSE NO. 45-06589-01 (REFERENCE CONTROL 257583; DOCKET NO. 030-06568)

Dear Mr. Wymer:

Enclosed is Amendment No. 18 to License No. 45-06589-01.

Please review the document carefully and be sure that you understand all conditions. If you have questions or comments, please notify Ms. Diane Heim at (404) 562-4723.

Note that as part of this amendment, in accordance with 10 CFR 30.36, effective February 15, 1996, the expiration date of your license has been extended by a period of five years. Your new expiration date is stated in Item 4 of the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR 19, "Notice, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Notify NRC, in writing, within 30 days:
 - a. when an authorized user or Radiation Safety Officer permanently discontinues performance of duties under the license or has a name change; or
 - b. when the licensee's mailing address changes (no fee is required if the location of byproduct material remains the same).
3. In accordance with 10 CFR 30.36(b) and/or license condition, notify NRC, promptly, in writing, and request amendment or termination of the license:
 - a. when you decide to terminate all activities involving materials authorized under the license; or

- b. when you decide to terminate licensed activities in a separate building or outdoor area identified on your license; or
4. Request and obtain a license amendment before you:
 - a. order byproduct material in excess of the amount, or a different radionuclide or form, other than authorized on the license;
 - b. add or change the areas of use or address (or addresses) of use identified in the license application or on the license; or
 - c. change ownership of your organization.
 5. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations. Transfer of licensed materials must be consistent with 10 CFR 30.41. A license will not normally be renewed, except on a case-by-case basis, in instances where licensed material has never been possessed or used.

In addition, applications for NRC licenses (Form 313) must be signed by the licensee or certifying official (not a consultant). By signature, the signing official certifies his/her understanding that the application is true and correct to the best of the signator's knowledge.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a Notice of Violation, or imposition of a Civil Penalty, or an order suspending, modifying or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," NUREG-1600, (7/95). Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken against those who do not achieve the necessary attention to detail and standard of compliance expected of licensees.

Thank you for your cooperation.

Sincerely,

David J. Collins
License Reviewer
Division of Nuclear Materials Safety

Amendment No. 18

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

| | | | |
|--|--|---|--------------------------------|
| Licensee | | In accordance with the letter dated July 23, 1997 3. License Number <u>45-06589-01</u> is amended in its entirety to read as follows: | |
| 1. | GENICOM Corporation | | |
| 2. | 1 Genicom Drive Waynesboro, Virginia 22980-1999 | 4. Expiration Date | <u>May 31, 2005 (Extended)</u> |
| | | 5. Docket or Reference No. | <u>030-06568</u> |
| 6. Byproduct, Source, and/or Special Nuclear Material | 7. Chemical and/or Physical Form | 8. Maximum Amount that Licensee May Possess at Any One Time Under This License | |
| A. Krypton 85 | A. Gas | A. 1.85 terabecquerels (50 curies) | |
| B. Krypton 85 | B. Sealed sources | B. Not to exceed 37 megabecquerels (1 millicurie) per vial | |
| 9. Authorized Use: | | | |
| A. Storage in D.O.T. approved shipping containers, loading into and use in Radiflo Mark V for leak testing of parts and components | | | |
| B. Instrument calibrations | | | |

CONDITIONS

10. Licensed materials shall be used only at the facilities at 1 Genicom Drive, Waynesboro, Virginia.
11. The Radiation Safety Officer for the activities authorized by this license is Wayne H. Wymer and in his absence, Andrew L. Ringgold.

Amendment No. 18

CONDITIONS

Continued -

12. Licensed materials shall be used by, or under the supervision of:

| | <u>Name</u> | <u>Job Status</u> |
|----|-----------------|--|
| A. | D. Brooks | Operator |
| B. | K. Cline | Assistant Radflo Safety Officer (ARSO)/Maintenance |
| C. | R. Holbert | Maintenance Technician |
| D. | D. Hopkins, Jr. | Cognizant Engineer |
| E. | S. Kee | Operator |
| F. | B. Ketterer | ARSO/Maintenance |
| G. | A. Ringgold | Alternate RSO/ Cognizant Engineer |
| H. | J. Sensabaugh | Maintenance Technician |
| I. | W. Wymer | Radiation Safety Officer (RSO) |

13. Installation, relocation, initial testing, repair and servicing of the Radflo device shall be performed only by IsoVac Engineering Inc., K. E. Cline, B.E. Ketterer, A.L. Ringgold, W.H. Wymer, or by other persons specifically authorized by the Commission or an Agreement State to perform such services.

14. The licensee is authorized to release krypton-85 gas during normal operations of the Radflo unit provided the concentration of krypton-85 in air does not exceed the permissible concentrations specified in 10 CFR 20.1702 and/or 10 CFR 20.1301 as appropriate.

15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.

A. Application dated October 24, 1994 [Complete renewal package]

B. Letters (and facsimiles, as noted) dated (or received, as noted):

1. May 22, 1995 [Additional response]
2. July 23, 1997 [Change RSO, add and delete personnel]
3. October 7, 1997 [Training certificates and class rosters]
