RE: LICENSE NUMBER 47-25211-01
ANNUAL MATERIALS FEE

Dear Sirs:

Rawl submitted Check No. 085492 for \$1,600.00 for the FY96 Annual Materials Fee for the period 10/1/95-9/30/96 with a letter dated September 9, 1996. Subsequently, we received a SMALL ENTITY STATUS DENIAL stating that Rawl is classified as a mining concern, not a manufacturing concern, and is a subsidiary of Massey Coal Co., Inc.

In response to this, Rawl has recently learned and verified that all radioactive sealed sources were removed from the respective property in November 1993 in accordance with NRC regulations and as such, Rawl is not subject to such ANNUAL MATERIALS FEE. See attached letter from SCAN TECHNOLOGIES for removal documentation. We apologize for this oversight on our part and for any inconvenience and would appreciate your return of the above-mentioned check.

If you have any questions or need additional information, please contact me at the above address.

Sincerely,

Gary Hatfield
Project Engineer
