WASHINGTON, D.C. 20555-0001

NOVEMBER 02, 1995

JOHNSTON-WILLIS HOSPITAL
1401 JOHNSTON-WILLIS DRIVE
RICHMOND, VA 23235

License No. 45-02888-01
Expiration Date: 02/28/96
Program Code: 02120

Gentlemen:

SUBJECT: NOTICE OF EXPIRATION

Your NRC license specified above will expire on the date shown. If you wish to continue your program, you must submit an application for license renewal in accordance with the enclosed instructions. Please pay particular attention to the enclosed instruction because due to major regulation changes or several major amendments to your license, you may be required to submit a complete renewal application that is complete in all respects and does not need to refer to any previous license documentation. You are also reminded that you are required to comply with the applicable provisions of the revised 10 CFR Part 20 which became effective January 1, 1994.

If your application for license renewal is filed at least 30 days before the expiration date of your license and the application is accompanied by the appropriate fee for license renewal (see 10 CFR 170.31), your license will remain in effect until final action is taken on your application. However, if your application is filed less than 30 days before the expiration date and it cannot be processed before that date, you would be without a valid license when the license expires. You would have to place the material in locked storage pending a decision on your application and could not use the material until a new license is issued. Use of the material after the expiration date may subject you to enforcement action as described below.

If you do not wish to renew your license, you must dispose of or transfer all licensed radioactive material in your possession in an authorized manner (see 10 CFR 30.36), complete the enclosed Form NRC-314, "Certificate of Disposition of Materials," and return it before the expiration date of your license with a request that your license be terminated. If you cannot dispose of or transfer all licensed radioactive material in your possession before the expiration date, you must request a license renewal for storage only of the radioactive material to avoid enforcement action for violations involving possession of licensable material without a valid license. Enforcement action may include a substantial civil monetary penalty as well as daily civil penalties of \$500 per day until you achieve compliance.

This notice of your license expiration is sent for your convenience and it should not be interpreted that similar notices will be sent in the future. The responsibility for timely submission of license renewal remains with the licensee. If you have any questions regarding this notice or license expiration/renewal, please contact our Regional Office that handles your license.
