## SYNOPSIS

The Office of Investigations (OI), U.S. Nuclear Regulatory Commission (NRC), Region II, initiated this investigation on October 16, 1997, to determine whether Now Care, Inc. (NCI), without authorization, transferred control of its license to another business entity.

Based upon evidence developed during this investigation, OI determined NCI willfully transferred control of its NRC license, without authorization, to Tri-State Medical Center (TSMC), Huntington, West Virginia. Further, NCI willfully failed to notify the NRC of its March 1996 bankruptcy.

Additionally, OI determined TSMC willfully received, possessed, and used byproduct material without a specific or general license issued by the NRC.
